

DR BEN SPENCER MP
RUNNYMEDE AND WEYBRIDGE

HOUSE OF COMMONS
LONDON SW1A 0AA

6th July 2022

It is with anger and regret that I write again regarding events that have occurred in Westminster.

The appointment of a person to a senior position in Government, a role which included safeguarding the welfare of others, when there existed allegations of sexual misconduct and previously upheld complaints about his behaviour, is simply inexcusable.

In response we have seen obfuscation and deflection around the facts surrounding his appointment, depressingly similar to that seen in response to the 'Partygate' scandal.

We rightly expect the highest standards in Government, and leadership means taking responsibility for one's actions.

The Prime Minister should resign.

Ben Spencer
